With regards item 8, I think it is best I draft the policies and deliver back to the group for review/explanation. I am happy for the group to tell me what they want me to write policies on however. But largely this should all come from the framework. Please also note from my support proposal where I have the following commitment:

- *Once findings of the mid-way community engagement is available, prepare policy chapter of the plan, taking into account feedback received at mid-way community engagement as well as emerging evidence (e.g. housing needs assessment).*
