

## Consultation board responses March 2017

- No more housing developments allowed until they count towards bypass!
- Could the areas A and C have a shopping, leisure, doctors etc somewhere in the centre of this area, making for want of a better word, a 'heart' to the zone. A swimming pool would also be a nice feature, money allowing of course. Please don't forget the 'green' landscaping.
- Tennis courts
- Crossing at Flowerpot Lane and A140 is very dangerous! They say there is enough time for people to cross when we have reported it!
- Redevelopment of Long Stratton village hall and car park area
- A new community centre with rooms available for business hire, a day centre part for elderly to meet. A bar area for evening use.
- More car parking facilities around the playing field and each school
- A new playground/field for children to play in with more modern play equipment
- A cricket pitch and club facilities with parking
- Help to make St Mary's church more suitable for community and support use for current village hall to improve it
- Community centre. Elder persons retirement housing with access to health services
- Swimming pool and doctors surgery
- Contribution to repair and re-ordering St Mary's church to make it more available for community activities
- Allotment space, current provision waiting list
- 20 miles per hour limits and speeding on Flowerpot Lane a real problem. Police don't do enough to enforce the speed limits in the village
- Public swimming pool
- There is absolutely no point having a bypass opposite side of the village to the industrial estate (think Harleston). Vans/lorries/industrial traffic will still travel through the village. If there are defined access routes through the village to the bypass they must be enforced by the authorities

[Our long-term goal is to make sure that Long Stratton is the best place to live, work and play anywhere in the UK.](#)

As a qualifying body in accordance with section 61g of the 1990 Town and Country Planning Act as amended by the Localism Act 2011 and Section 5 of the Neighbourhood Planning Regulations 2012, Long Stratton Parish Council is undertaking a Neighbourhood Plan

## Consultation board responses March 2017

- There needs to be some real investment (not just talk) into community facilities and services. Never see a PCSO in Stratton anymore. Petty crime seems to be becoming an increasing problem.
- Disruption and dirt during construction of all these houses
- Stratton needs a much better swimming pool. Leisure centre needs improvement/expansion
- New park equipment/apparatus (what we have is very old and tired)
- Full size football pitches and smaller ones for children to use not on school grounds
- Community centre – opportunities for teenagers to become involved in activities and get off streets
- Better sports facilities at the high school i.e. tennis courts, basketball courts, running track, cricket and rugby
- Should have facilities at sports ground to provide hot drinks and food. Whoever has it can make money from it. And toilets
- New sports ground
- Community centre. 3G – bigger for all age groups
- Long Stratton could really do with a community facility like the Pennoyer centre at Pulham St Mary
- More car parking, doctors, school places inc high school. Improvements to water drainage. Bank!!
- Improved or new leisure centre. Swimming pool. In line with Wymondham
- Microsoft computing centre
- Schools, doctors. Need appropriate investment
- Dentists, doctors, schools, supermarket, expansion of shops, old peoples/care homes
- Better access to industrial estate. Enough open spaces
- Put the industry next to the bypass in the east so heavy traffic does not go through the town. Then incentivise existing industry to move

[Our long-term goal is to make sure that Long Stratton is the best place to live, work and play anywhere in the UK.](#)

## Consultation board responses March 2017

- Build complete new village with good infrastructure perhaps call it St Peters
- Improve Flowerpot Lane regarding access to the industrial estate
- A completely new town should be built called Stratton St Michael with all infrastructure, schools, doctors, shops etc – NOT an add on to Long Stratton as the present action proposed
- Town centre
- Preserve centre (enhance) car parking
- Just build a new town or village with new amenities
- Redevelop village centre – toddlers play area – open space to sit outside – to feel like a welcoming town
- 6<sup>th</sup> form
- Another high school should be built in the new housing (in addition to the proposed junior school)
- 6<sup>th</sup> form facilities
- 6<sup>th</sup> form provision
- Full time litter services/litter pickers
- Library grounds and other local amenities should be checked
- To Diss and to Norwich bus service improvement
- Parish councillors walking and talking to the villagers (frequently)
- Additional car parking urgently needed now in the centre of Long Stratton village. The Co-op car park area is not big enough – let alone when the 1800 new houses and 600 houses are built. I suggest moving the Fire Brigade station. Behind the Fire Station is a house called 'Melbourne House' with approx ¾ of land. These two plots would open up a large area right next to the Co-op. Enlarge SNDC car park for the public. The corner of Manor Road as you motor up towards SNDC offices – the area that is a playing field at present and has the school swimming pool in. N.B is the car park at the present doctors surgery going to be enlarged to accommodate the additional possible 3,600 or more residents in Long Stratton.
